**Leveling**System

DECOLEVEL is a subsidiary of DECOVITA.

# DECO | LEVEL

LevelingSystem

DECOLEVEL is a leveling system which can be used for tile jobs on both floors and walls.

DECOLEVEL is designed to ensure flatness between tiles. It eliminates spacing and lippage problems.

It is convenient for large size tiles and heavy tiles. DECOLEVEL is a subsidiary of Decovita.

LevelingSystem

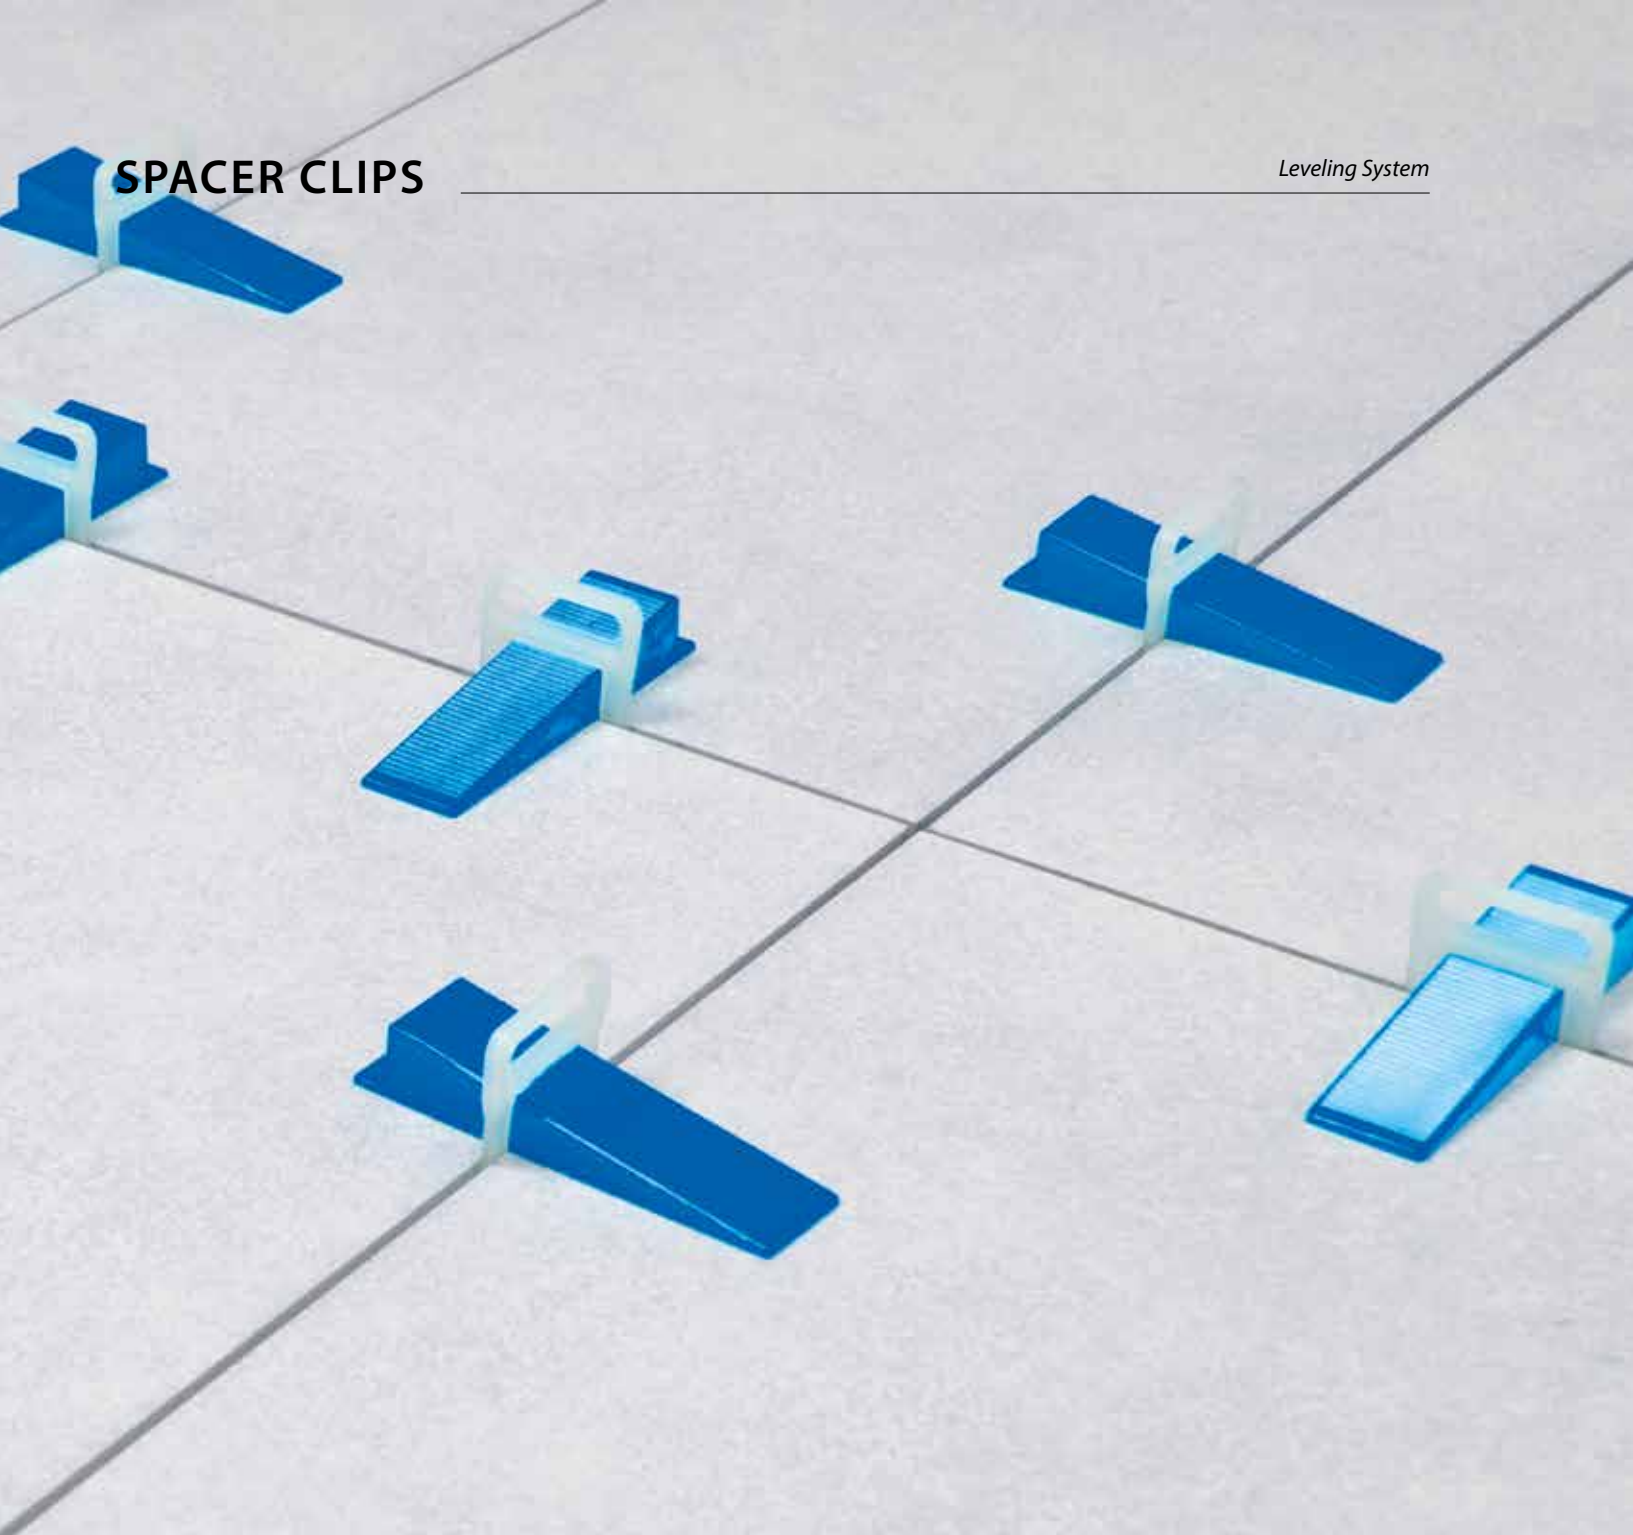

## PRODUCT GROUPS

# SPACER CLIPS

Leveling System

The system is applied manually.  
The final crimping process is made by using its special plier.  
That is practical and easily applicable.

Leveling System

# SPACER CLIPS

Code	Product	Nominal mm (in)	Units (per bag)
------	---------	-----------------	-----------------

### 1 mm Spacer Clips ( 3/65" )

TT250-1	Spacer Clip	1 ( 3/64" )	250
---------	-------------	-------------	-----

### 1.5 mm Spacer Clips ( 1/16" )

TT250-1.5	Spacer Clip	1.5 ( 1/16" )	250
TT500-1.5	Spacer Clip	1.5 ( 1/16" )	500

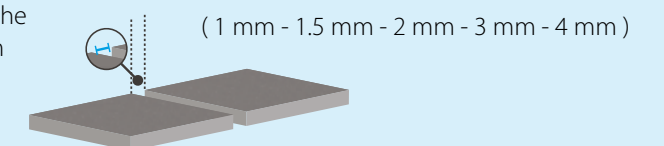

### 2 mm Spacer Clips ( 5/64" )

TT250-2	Spacer Clip	2 ( 5/64" )	250
---------	-------------	-------------	-----

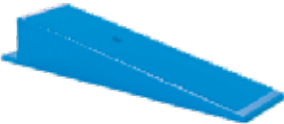

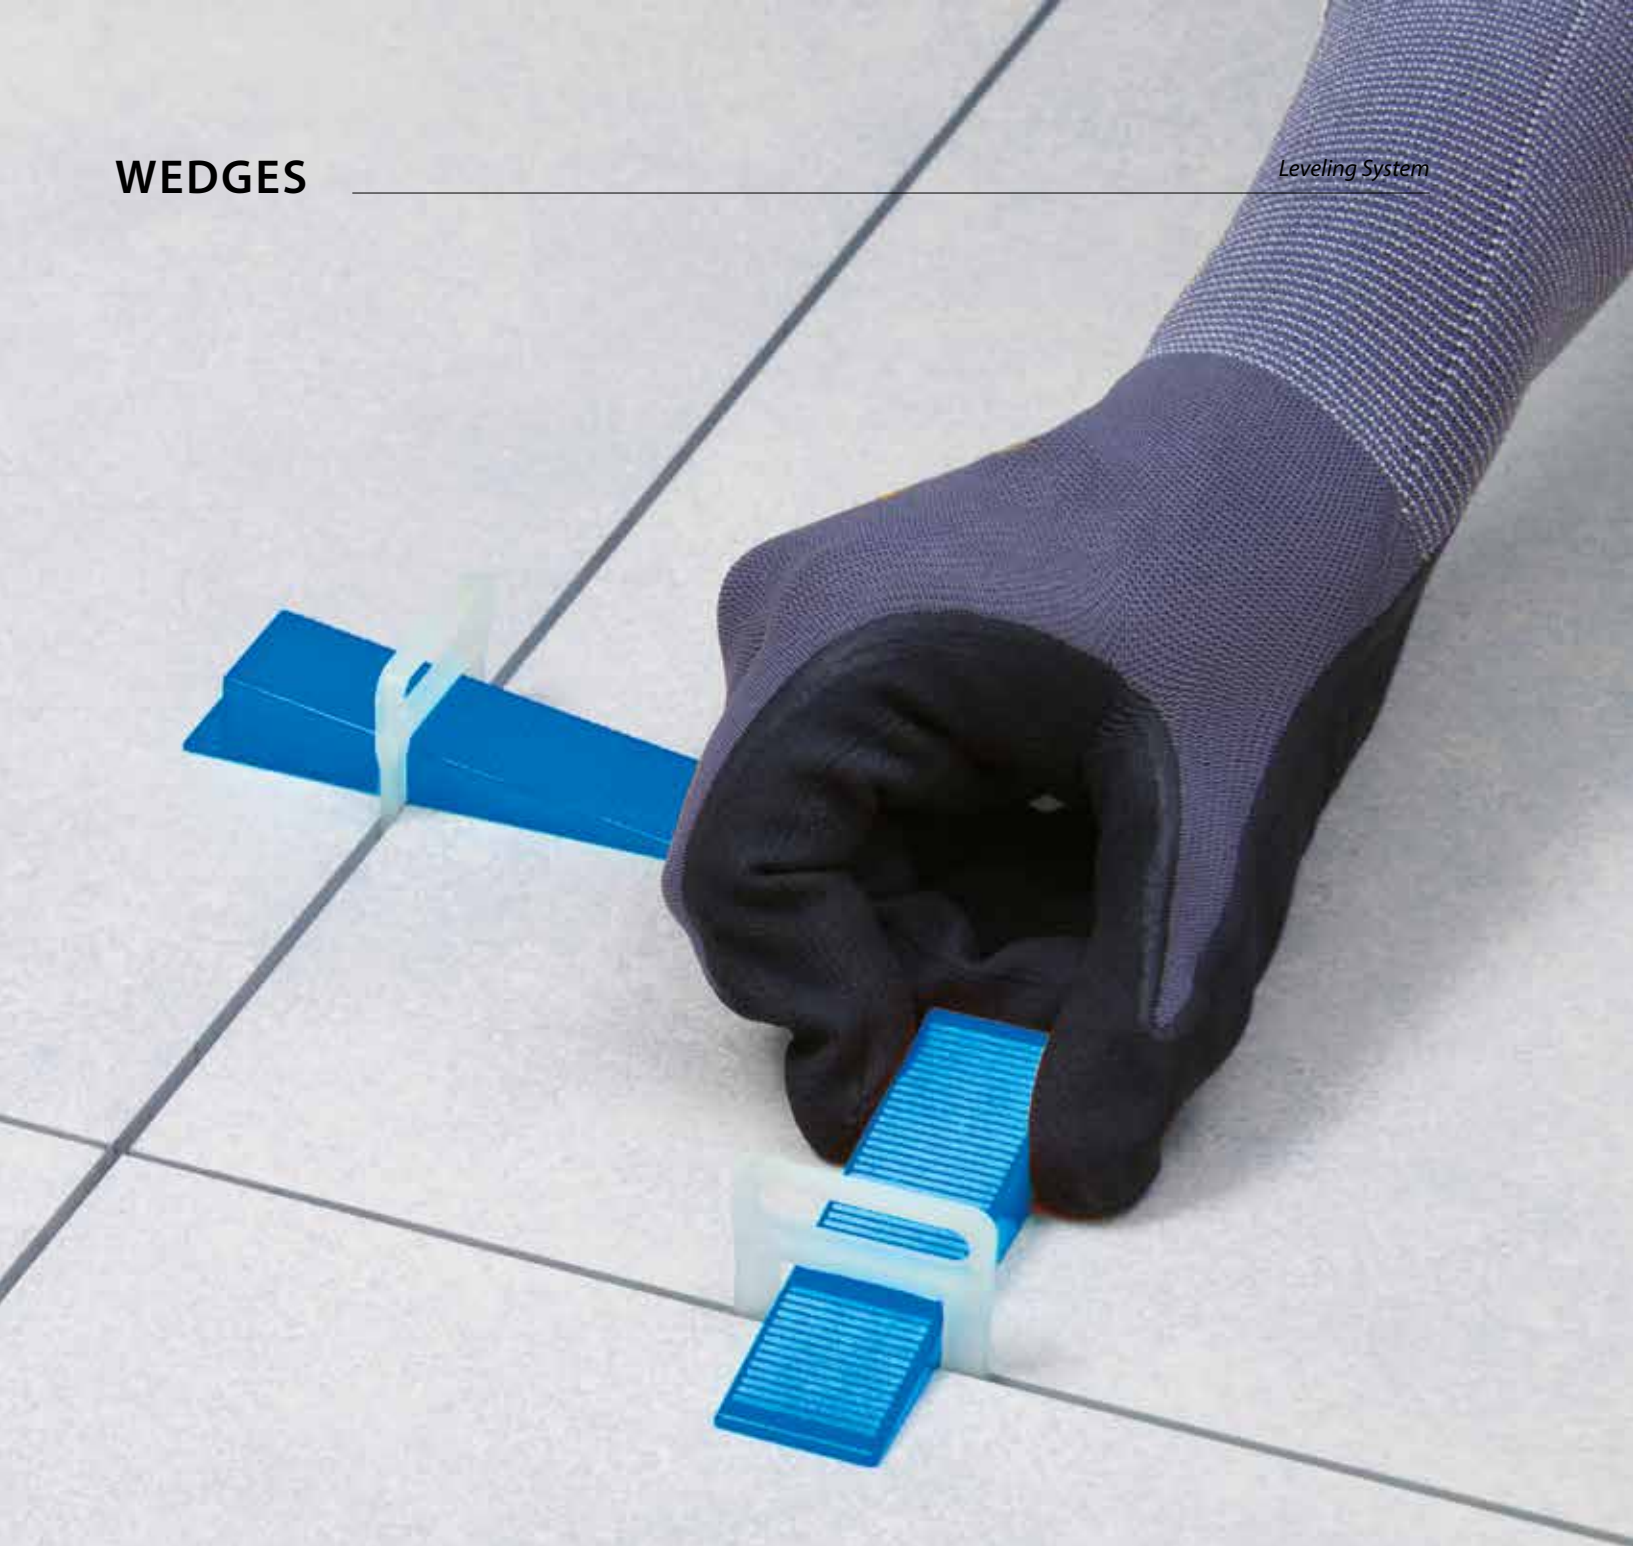

### 3 mm Spacer Clips ( 1/8" )

TT250-3	Spacer Clip	3 ( 1/8" )	250
TT500-3	Spacer Clip	3 ( 1/8" )	500

To get different joint width the system has spacer clips from 3/64" (1mm) to 5/32"(4mm)

Wedges

Code	Product	Units (per bag)
TK100	Wedge	100
TK250	Wedge	250
TK1000	Wedge	1000

Spacer clips are used for all tiles with a thickness from 1/8" (3mm) up to 9/16" (15mm)

**PLASTIC  
PLIERS**

*Leveling System*

The Plastic Plier has been developed for non-professionals . They can be used for tile jobs on both floors and walls. The Pliers are made with hardened plastic making them very durable.

Code	Product
FP-2	Plastic Adjustable Plier

**METAL  
PLIERS**

*Leveling System*

The Metal Plier has been developed for professionals. Thanks to its hardened steel the metal plier is long-lasting and durable. They can be used for tile jobs on both floors and walls. The stop pin provides compression on a stable basis. This stable compression eliminates involuntary rupturing of the clips placed under the tiles.

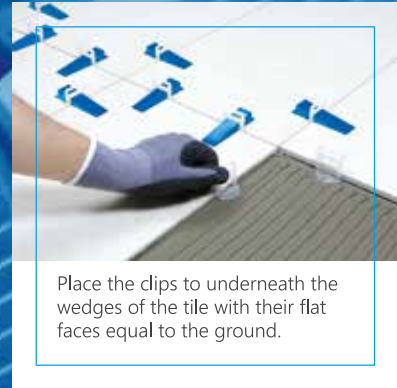

Code	Product
FP-1	Metal AdjustablePlier

# HOW TO APPLY?

Leveling System

# HOW TO CALCULATE?

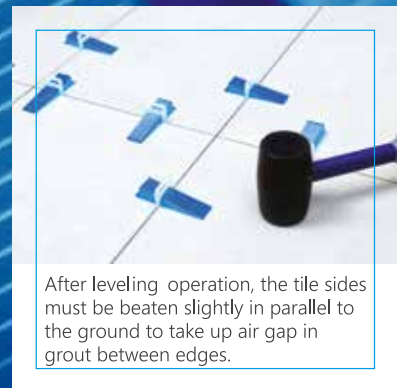

Place the clips to underneath the wedges of the tile with their flat faces equal to the ground.

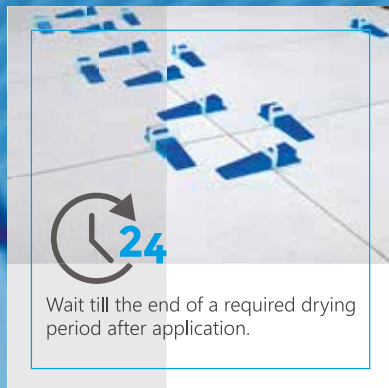

Insert the wedges into clips' socket manually.

Leveling operation is completed by compressing the wedges through adjustable plier.

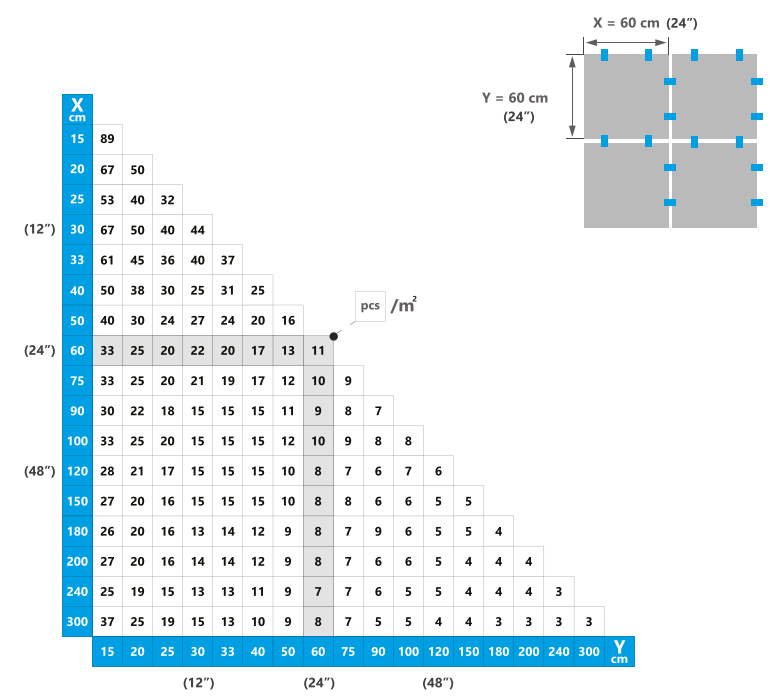

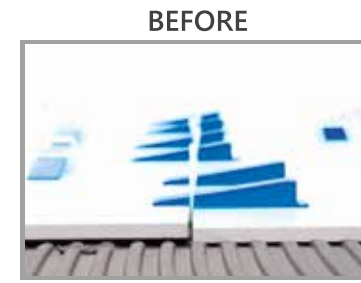

After leveling operation, the tile sides must be beaten slightly in parallel to the ground to take up air gap in grout between edges.

Wait till the end of a required drying period after application.

Once the adhesive is set, remove the wedges and clips by beating them from their sides.

" Use the chart how to calculate quantities of materials "

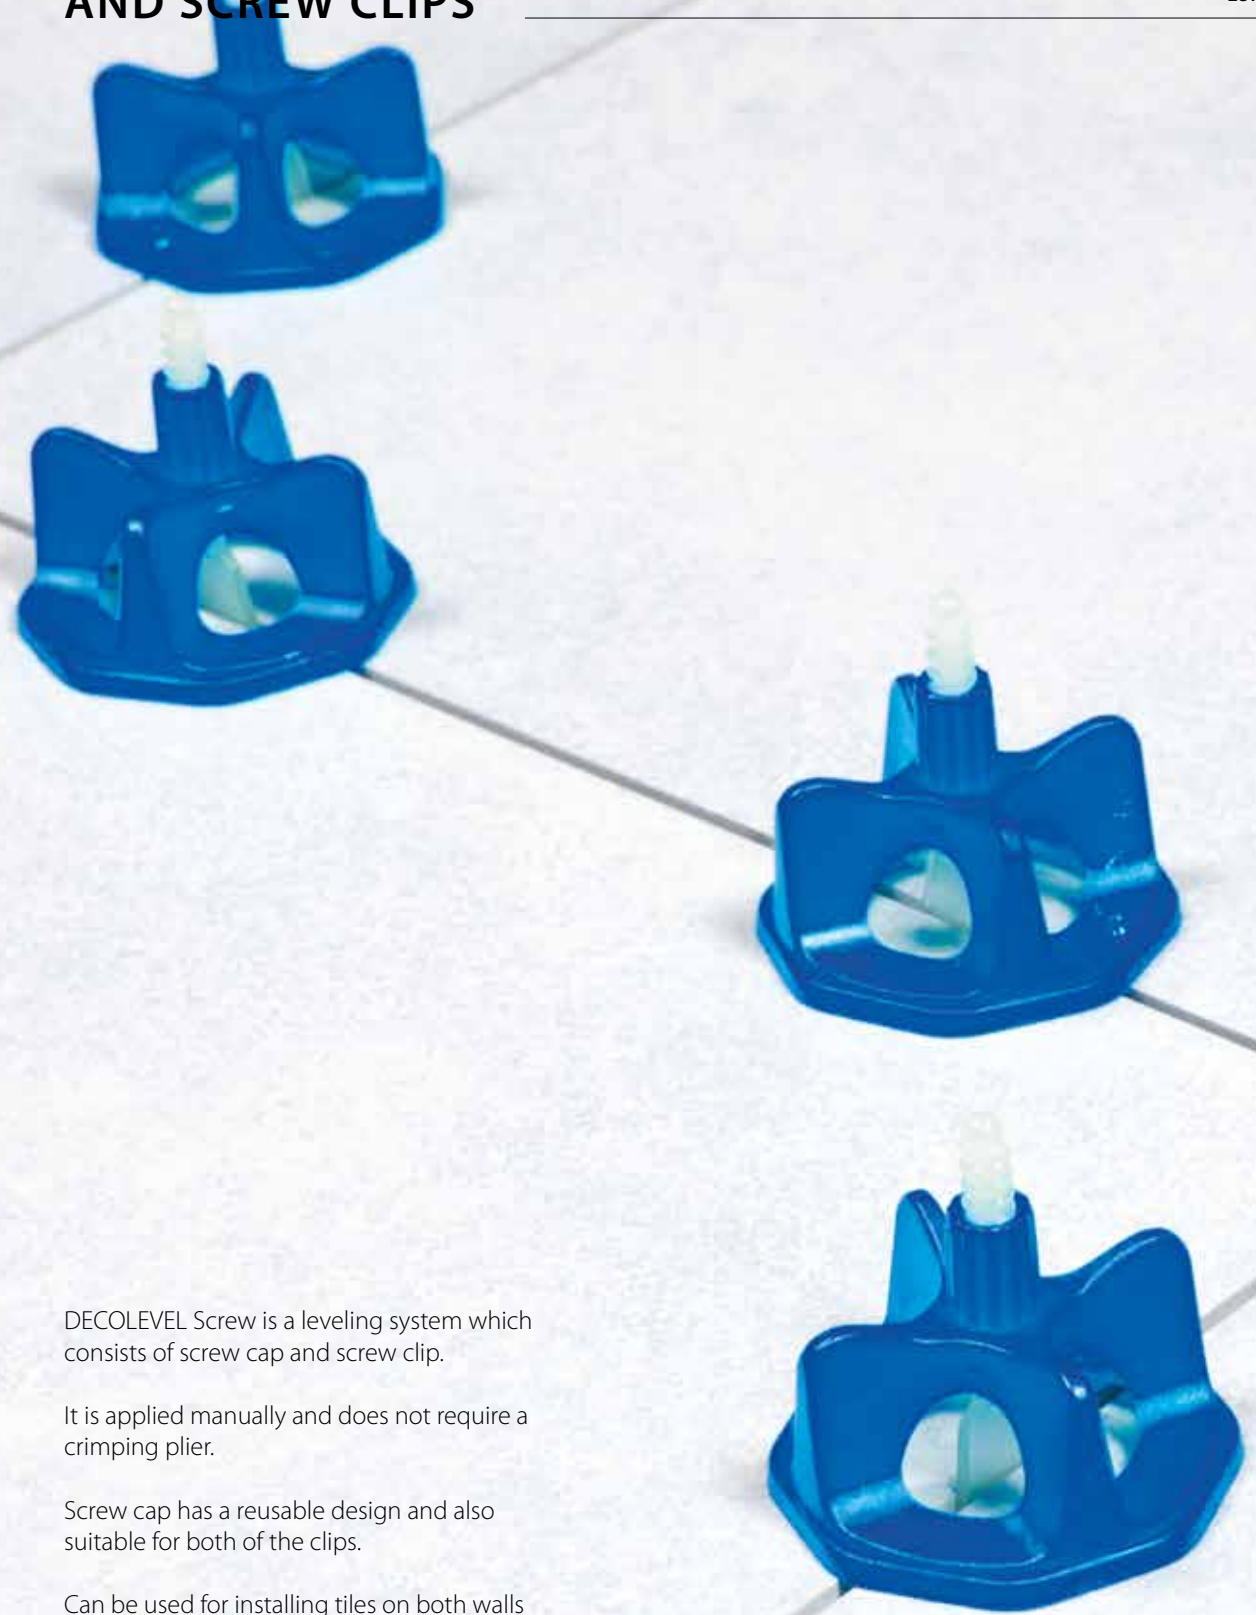

After removal procedure the retained wedges can be used on your next job.

# SCREW CAPS AND SCREW CLIPS

Leveling System

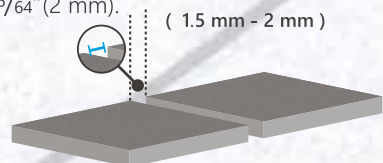

DECOLEVEL Screw is a leveling system which consists of screw cap and screw clip.

It is applied manually and does not require a crimping plier.

Screw cap has a reusable design and also suitable for both of the clips.

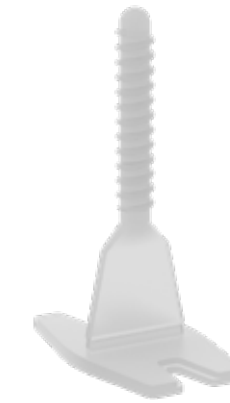

Can be used for installing tiles on both walls and floors.

It has clips in grout dimension  
1/16" (1.5mm) and 5/64" (2 mm).

# SCREW CAPS AND SCREW CLIPS

Leveling System

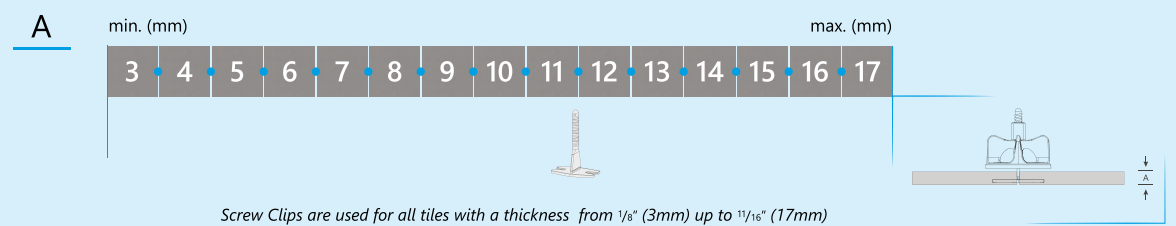

## Screw Clips

Code	Product	mm (in)	Units (per bag)
SC250-1.5	Screw Clips	1.5 ( 1/16" )	250
SC500-1.5	Screw Clips	1.5 ( 1/16" )	500
SC500-3.0	Screw Clips	3.0 ( 1/8" )	500

## Screw Caps

Code	Product	mm (in)	Units (per bag)
SW100	Screw Caps	-	100
SW250	Screw Caps	-	250

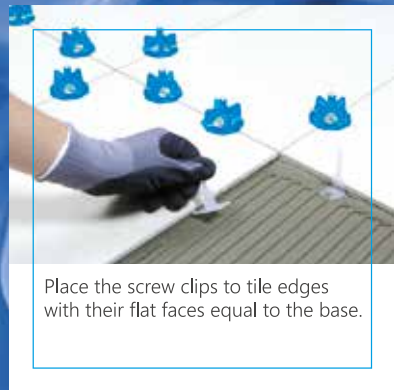

Screw Clips are used for all tiles with a thickness from 1/8" (3mm) up to 11/16" (17mm)

# HOW TO APPLY?

Leveling System

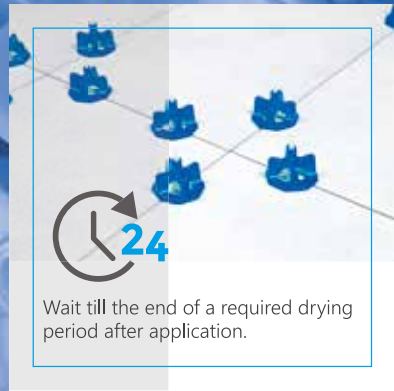

Place the screw clips to tile edges with their flat faces equal to the base.

Insert the screw cap in the clips' screw. By only using your fingers, twist the screw cap down with a single action.

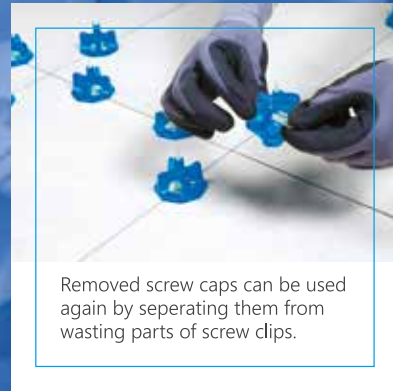

Twist the screw cap down to the end to level the tile edges.

Wait till the end of a required drying period after application.

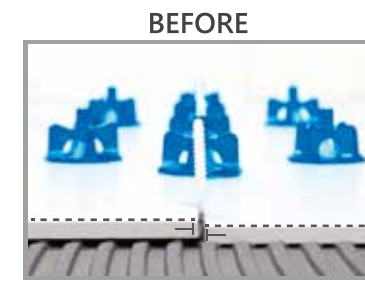

Once the adhesive is set, remove the screw caps and clips by beating from side.

Removed screw caps can be used again by separating them from wasting parts of screw clips.

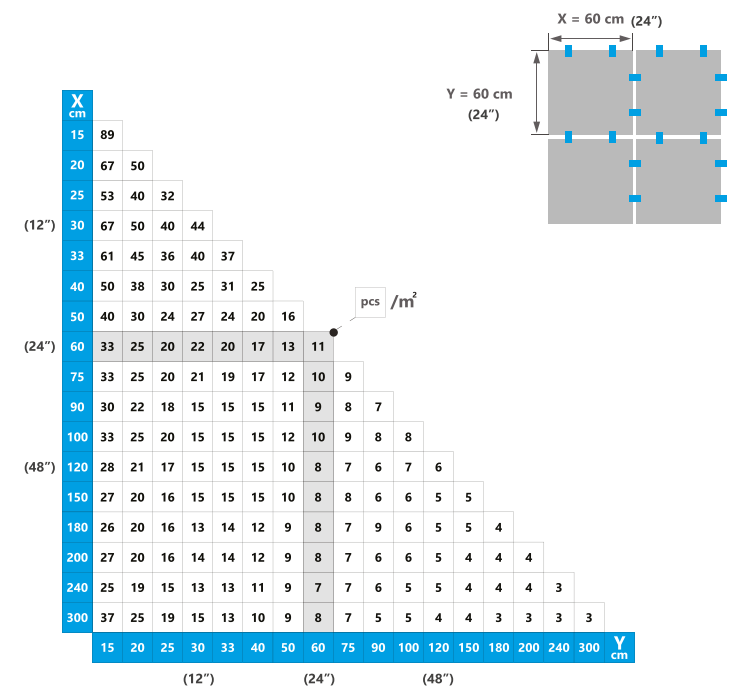

# HOW TO CALCULATE?

BEFORE

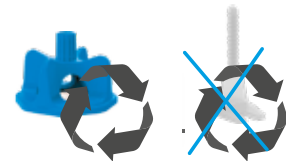

AFTER

" Use the chart how to calculate quantities of materials "

After removal procedure the retained screw caps can be used on your next job.
