# DECOVITA

*Decovita porcelain tiles set out on a journey to make our highly diverse products available at affordable prices.*

*Our guiding principle was to feed a love of life into elegant, modern and impressive custom-made designs. This is what lies behind our more than 2.500 different porcelain tile patterns.*

*With superior design and quality, we blend on an optimum level the traditional and modern, which are indivisible parts of a whole. We strive to enrich first our job and then our life. Created at the highest standards and with the latest technology in the ceramics industry, our products are now available in more than 70 countries including chiefly England, Germany, France, Spain, USA and Russia.*

*We add a new touch of chic in living areas with Polished, Silver Stone-Matt, HDR Stone-Matt, HDR Wood-Matt and DRY Granule-Matt surfaces produced in our factory, as well as Sugar Effect, made only in our factory in Turkey for the first time. We embellish these surfaces with Natural Stone, Wood, Concrete, Marble and Textile textures.*

*Our Extra-Strong glazed porcelain series include 20 mm (3/4") and 30 mm (1 1/4") thick tiles in various sizes, suitable for outdoor applications.*

*Our exclusive glazing technology protects our ceramics against scratch or chemicals such as bleach. We also turn them into three-dimensional pieces with a natural stone feel. To preserve this very naturalness, we are able to reduce the grout joint from 3 mm in market standards, to as low as one millimeter with our high-calibration standards.*
